

A large sea turtle is swimming in clear, vibrant blue water. The turtle's shell is a rich brown color with distinct scutes. Its head and front flippers are visible, and it appears to be moving towards the right. Overlaid on the image in a large, white, bold, sans-serif font is the word "WIFE". The letters are positioned centrally, with the "W" on the left and the "E" on the right, partially obscuring the turtle's body.

WIFE

ENVIRONMENT SUNDAY

Date: First Sunday in June

Passage: Genesis 1:9

Site: Zoom Meeting

AND **GOD** SAW
THAT IT WAS **GOOD**

GENESIS 1:9

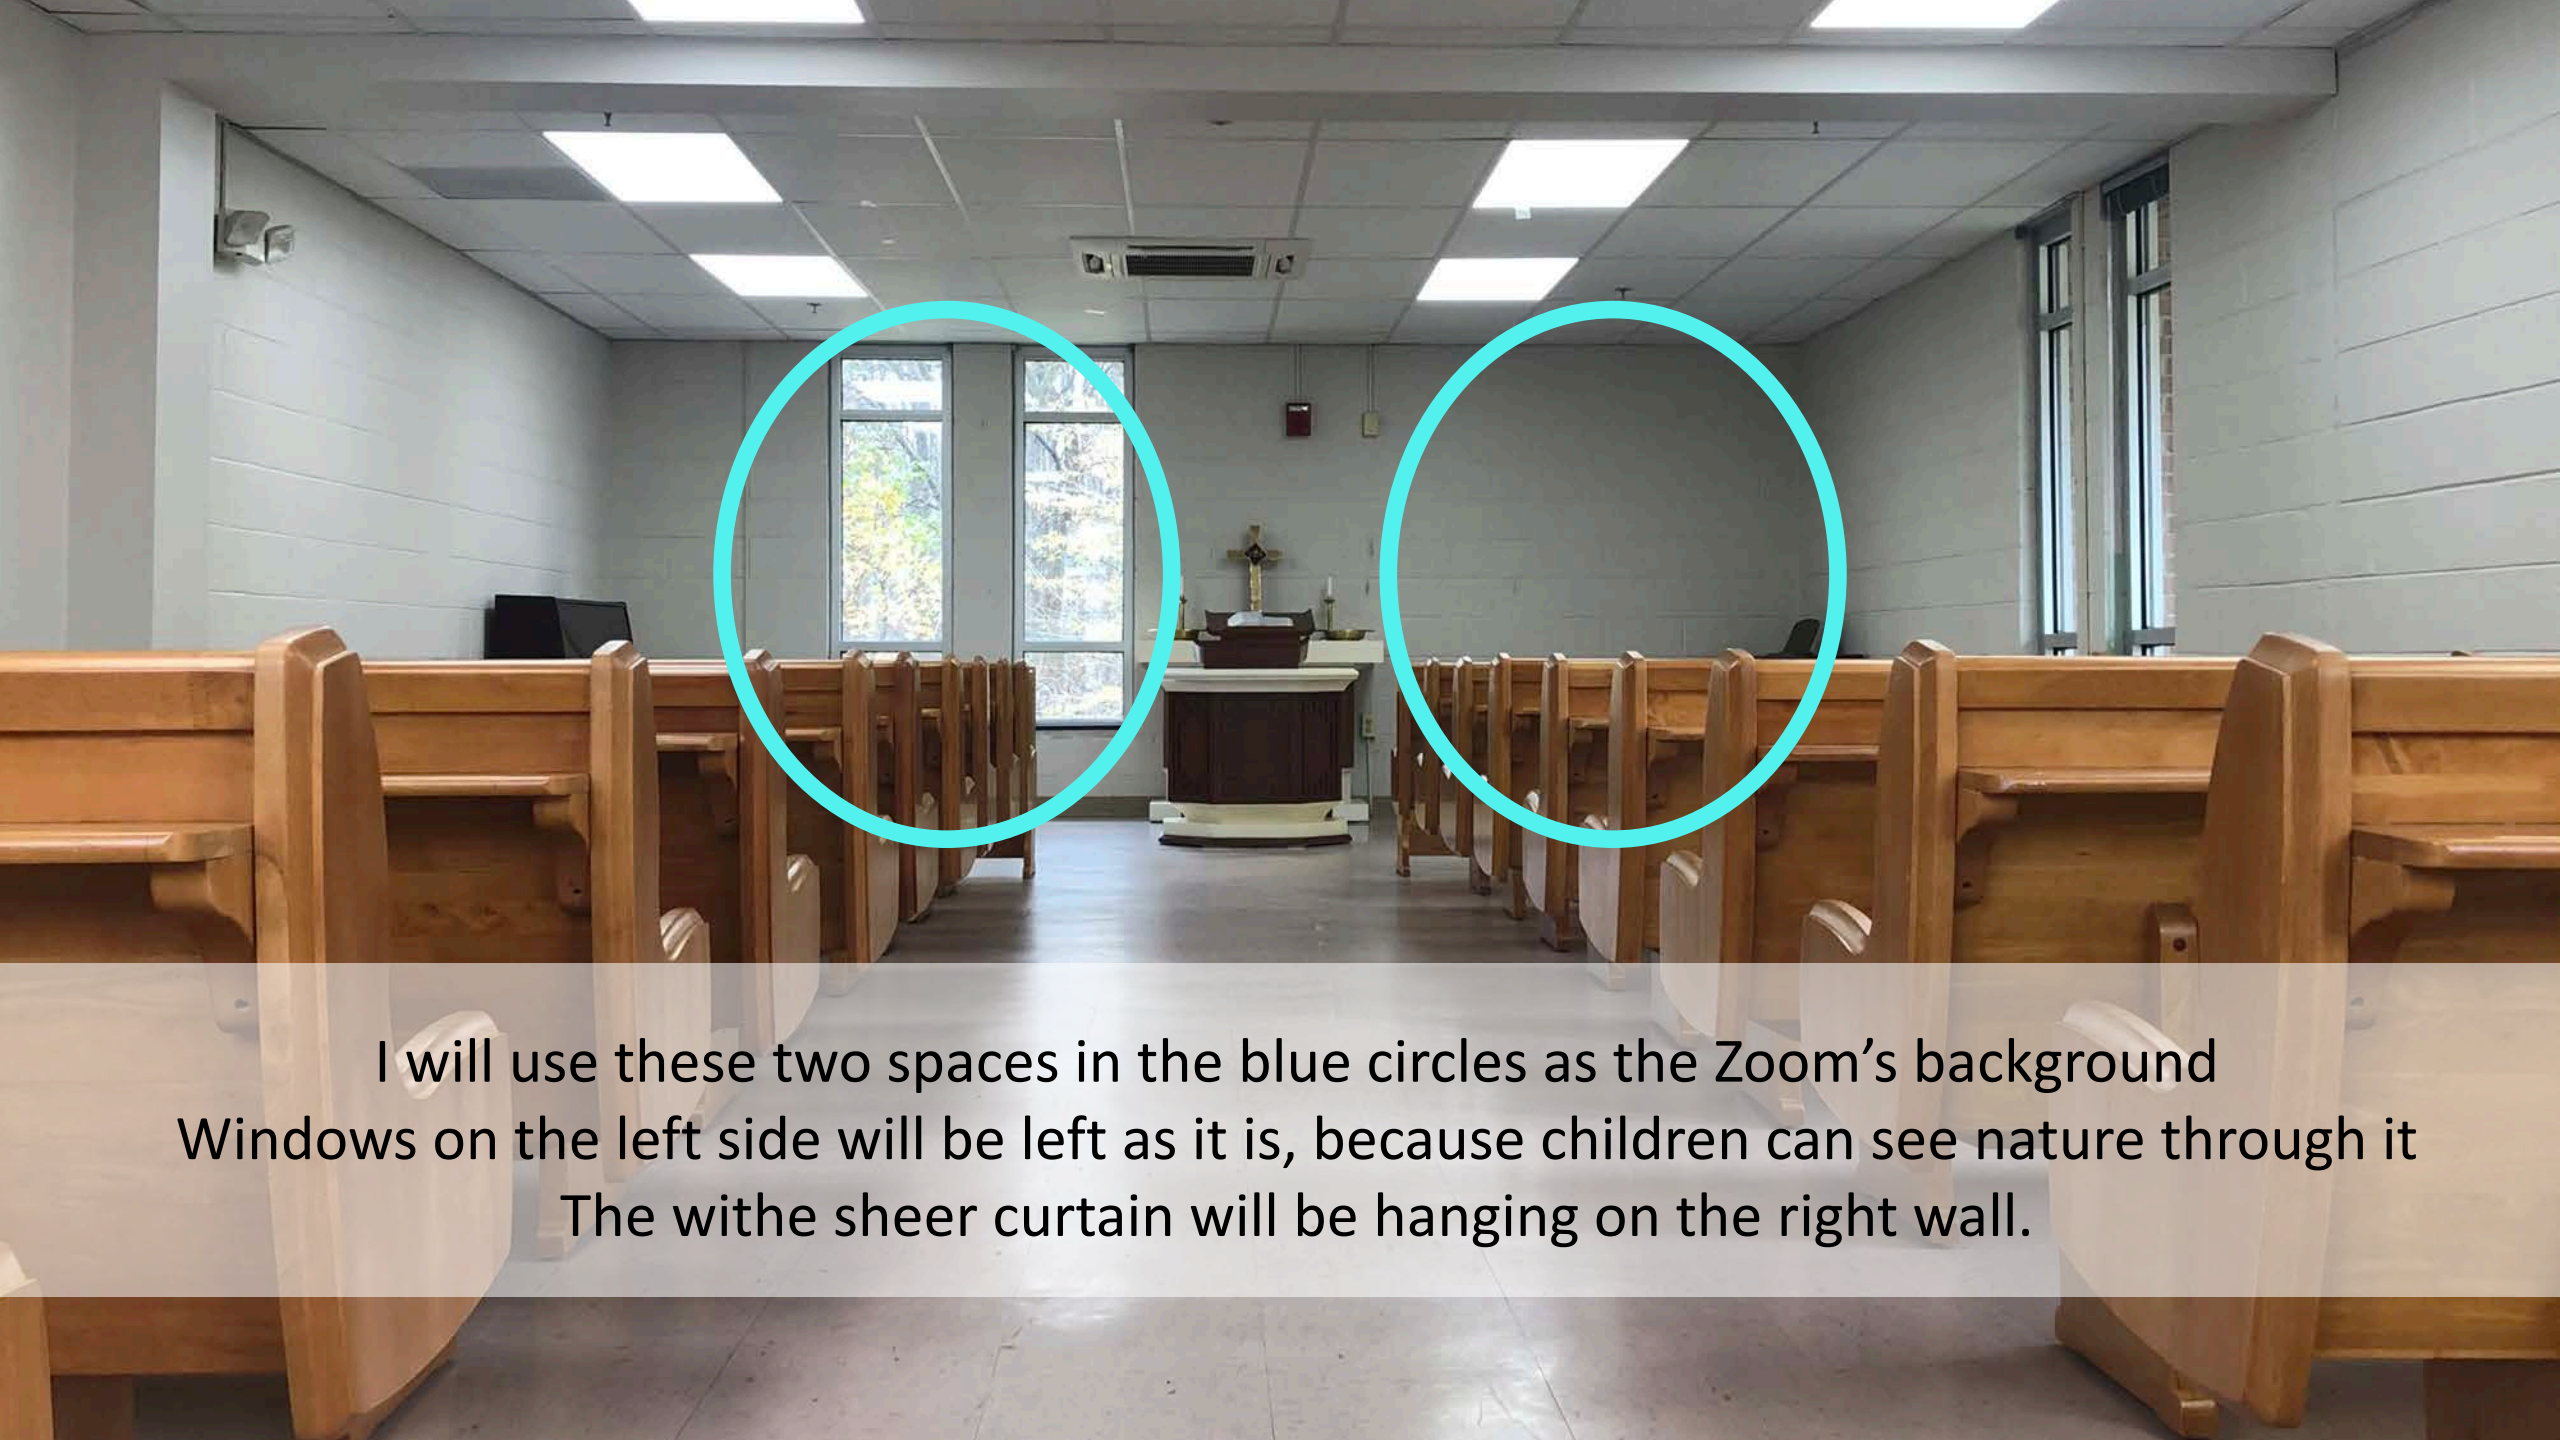

Proposal

In COVID -19 Period, we have faced a massive crisis because of * human activity. Nature is that God made, and it is made not for fulfilling the purpose of humans. The human being is a part of Nature. Now, WE need to create a new relationship with the environment. It is essential to the next generation who will lead this world in the future.

In this special worship, we will consider the world, Nature, and environment issues by offering diverse materials to invoke Nature.

In COVID-19, we cannot gather in chapel. In particular, the members of the worship are all children. The worship will be done through the Zoom. Even though there is a limitation to see and feel the worship directly, I will use the chapel's wall as the virtual meeting's background. I will try to use recycled material as much as possible because the worship is considering the environment.

* I think a sort of human activity is responsible for COVID because the COVID is the Zoonosis or Anthroozoonoses, A disease in which animals and humans can be transmitted in common together. Destroying the environment and wild animal poaching increase the rate of such disease. SARS, MERSC were also Zoonosis.

I will use these two spaces in the blue circles as the Zoom's background
Windows on the left side will be left as it is, because children can see nature through it
The white sheer curtain will be hanging on the right wall.

MASUREMENT

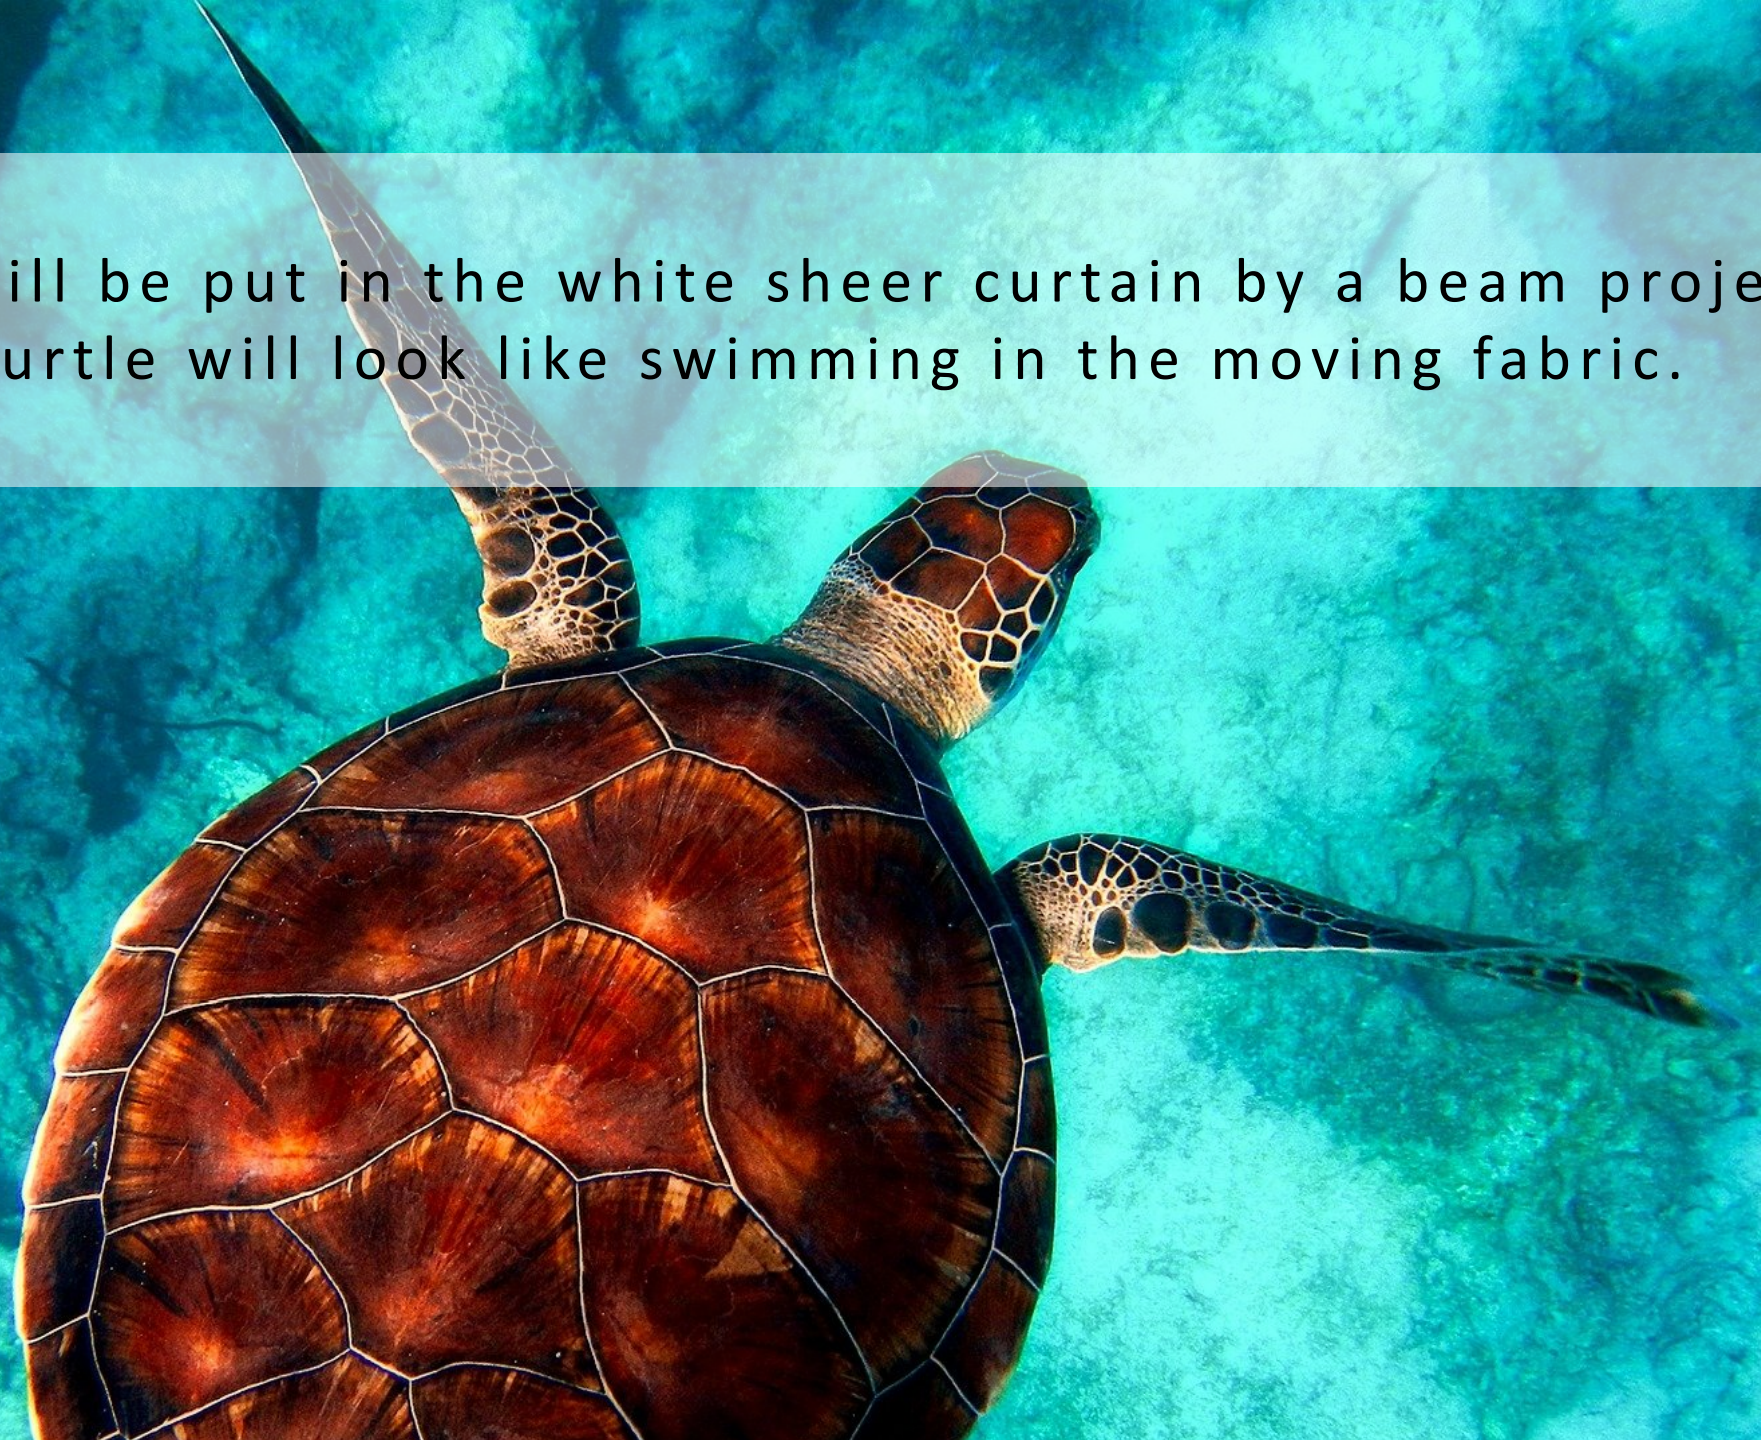

White Sheer Curtains

I will use white sheer curtains on the right wall, then cutting it into many pieces.
I will open all windows to swing the curtain. The fabric will seem like sea waves

This picture will be put in the white sheer curtain by a beam project
This sea turtle will look like swimming in the moving fabric.

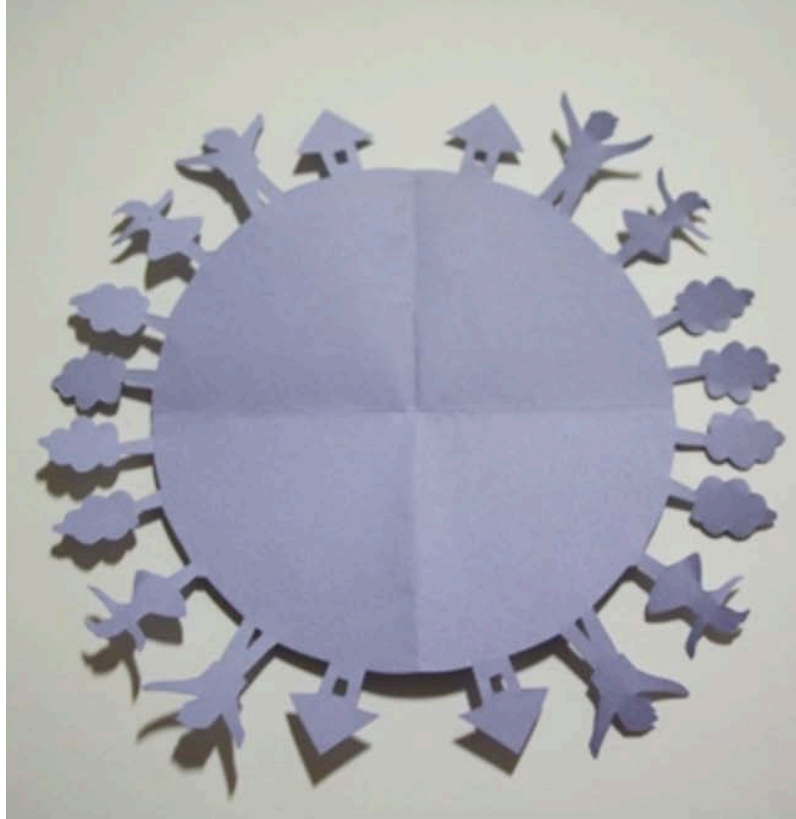

Sending small flowerpots to Children

Recycled materials are used for the pots.

Used mug cups will be a pots.

The flowers or plants and soil around the churchyard
will be used.

Through the pots, children
can feel NATURE God made.

ACTIVITY

Through the activity, we can see entire entities are connected one another

ANNOUNCEMENTS

1. Liturgical Season: Ordinary Time. Color: Green
2. This is environment Sunday. Please have a time to consider environment and your circumstance.
3. Please check next person who will light up candles, pray for us, and help offertory.
4. I hope you will take care of the plant that I sent you and feel God through that plant.

The Painting was painted by Charles Francois Daubigny, who was a landscape painter in France. He was interested in NATURE.
Charles-Francois Daubigny (1817-1878), Banks Of The Loing.
